

PERSONAL STATEMENT

STEVE DALY

I have been a member of the KWVRPS since March 2022 and volunteer in the Stations, Catering and Tour Guides departments. In February this year I took up the new Stations Appearance and Customer Service Lead role within the Stations Leadership Team.

I retired to Keighley in February 2022 after 31 years in the police service, and 17 years in Local Government. Fifteen years of my career was spent in airport policing, where I was responsible for both training and contingency planning, delivering training to police and aviation security personnel from across the world and was acknowledged by the Department for Transport as one of the experts in the field. In Local Government, I provided emergency planning advice, guidance and expertise in the public transport arena until I retired. I was one of the Emergency Planning leads for both the 2012 Olympic Games and the 2014 Tour de France. I am a qualified Adult and Further Education teacher and hold a Diploma in Emergency Planning, along with a Level 2 Certificate in Customer Service with a double distinction.

If elected I would relish the opportunity to continue in my current Stations Leadership role focusing on Stations Appearance and Customer Service.
